

## Marshall Team Meeting (MTM) July 11, 2005

DA01/D. King - Mr. King is at Kennedy Space Center (KSC) supporting the STS-114 launch activities. The launch is still scheduled for July 13 at 2:51 p.m. Today's MTM will be conducted by Ms. Teresa Vanhooser, Acting Director, Engineering Directorate.

ED01/T. Vanhooser – Charles Chitwood is in Washington, DC for the Tennessee Valley Corridor National Summit; various members from Industry, Academia meet with Congressional delegates to discuss the economic and technological development of Alabama, Tennessee, Virginia, and Kentucky. To date, 69 buyout applications have been received. Of those, only 55 are eligible. NASA/Langley Research Center (LaRC) visited the Center last Thursday, July 7, and the Government Accounting Office (GAO) visited on Friday, July 8 for a tour of the Center's facilities. Jim Morrison, the new Assistant Director for NASA Issues within GAO, requested the tour of Marshall's laboratories and the U. S. Space and Rocket Center (USS&RC) to better understand NASA and Marshall's mission and history as they begin work in the NASA Issues Area. Ames Research Center (ARC) will visit the Center on Friday, July 22. The annual von Braun Forum at the USS&RC is scheduled for next Friday, July 22. In addition, Mr. Gene Cernan (former astronaut) is tentatively scheduled to speak to MSFC employees in Morris Auditorium on July 22 from 2:25 – 3:25 p.m.

EM20/D. Burns - Presented a safety moment on Trips/Slips/Falls and Lost-Time Mishaps. Charts used in this presentation are posted on Inside Marshall.

HS50/L. Motley - Presented a presentation on a Critical Incident Stress Management Plan. Charts used in this presentation are posted on Inside Marshall.

AD60/Joyce Eagan - Presented a presentation on the required safety topic for July, "Hazard Communication Overview." Charts used in this presentation are posted on Inside Marshall.

QD40/Fayssal Safie – Presented a technical presentation on the External Tank (ET) Process Control and its Impact on Reliability and System Risk Lessons Learned. Charts used in this presentation are posted on Inside Marshall.

QD50/Dennis Davis – Presented the Industrial Safety Report for the Center. Charts used in this presentation are posted on Inside Marshall.

CS10/Steve Durham – Presented a report of Center upcoming events. The Explorer School Workshop for the 2005 Team is being held all week at Marshall USS&RC. The point of contact for this event is Beth Ingram, HS30. On July 13 (launch date), there will be an employee launch viewing down in Bldg 4316 (activities building). Employees

should plan to be there by 2 p.m. Bus service will be provided. Also remind everyone that the buyout closure date is Friday, July 15, 2005.

QD01/R. Bridges/P. Allen – Reported on a type D mishap that occurred in building 4481 on July 6. A team is in place to investigate the incident.

DA01/ J. Bilbro – Fred Schramm is preparing a registration form that we will be putting out soon for the In-house Technology Display scheduled for August 2005 timeframe. The display will provide a good demonstration of all the technology that has been build up at Marshall over the last couple of years.

SP01/T. Lavoie – On July 4, we had a spectacular crash into a comet. Currently, we are collecting data from the spacecraft.
